

June 20, 2017 meeting called to order at 7:35 p.m. In attendance, John Shaw, Steve Gagne, John Kelsey, Ginny Curtis, Art Pichette, Brigitte O'Riordan, Bob Turner, Cindy Turner, Bill McCloud.

Motion to accept minutes from May 16, 2017 were approved.

Tom Martin from the Board of Health spoke about his concerns about the water supply. We do not have an aquifer recharge within our current bylaws. Tom would like the bylaw to address quality and quantity. He also put together a list for us to go through. John suggested we all look through the list and write down any questions or suggestions. Then we can get suggestions from Larry on definitions we have no idea on. (ex. Solar, tiny house, etc.)

John said he wrote to the Assessor's to get an idea on frontage vs acreage. The committee also discussed signoff procedures for building permits. Discussed proper procedures and which boards to go to in what order.

For the next meeting, we will all look at forms that were received from other Towns and look over Board of Health definitions. Next month the committee will meet with Larry to go over table of uses.

Next meeting will be July 18 at 7:30 p.m. Meeting adjourned at 9:03 p.m.
