Committee began the meeting on sec 5.12 Wind Energy Conservation Systems. This section was put aside so Art can gather information on height above tree line and overall height of the system. He will report at next meeting.

We started a review of new section on lighting exterior residential, after some discussion it was put aside so John S could compose a new draft, to be considered at next meeting. John will present the draft to Wade Clement, the original composer of the draft to discuss what will be changed/accepted, and invite him to the next meeting.

The committee will continue to send occasional updated versions to Administrative Assistant to be posted on website.

Next meeting will start at sec 5.12 Wind Energy.

John Shaw will try to find dates of amendments/adoption of current and old zoning bylaws so we can add a reference page with that information into the bylaws.
