Tom and Robby thanked the Selectboard for the letter of support for their work and commitment throughout the pandemic.

Covid Coordinator, Susan Bronstein reported:

- CARES funding is extended through December 30, 2021. Funds already received are included in the extension. Covers items not in budget as of March 2020. Another reporting period is coming soon.

- Highway Department updates, Bill Jablonski reported:

- last couple of weeks were short with holidays
- busy with multiple storms, had 4 inches of rain on Christmas
- work being done on Kings Highway Bridge in between storms; doing prep work to build retaining wall. Bridge is closed to traffic during the day and opened at night.
- Holyoke Water Department blocked turnarounds (used by plow trucks) with rocks. Bill contacted them and was told they do not want anyone on the reservoir and they are ticketing people for trespassing. Bill and Southampton Highway Superintendent spoke to them about access to turnarounds for emergency vehicles and resolved the matter. Access to the property is restricted as a water source for Holyoke.
- received funds through CARES to hire an assistant to the transfer station attendant, Don Fox, to help with compliance of social distancing and mask wearing. Adding funding for an assistant to the FY22 transfer station budget request after CARES funding expires. Don is overwhelmed trying to keep up. A job description is needed to open a search. The Selectboard concurred that they had agreed to hire a temporary assistant with CARES funds. Suggested a temporary assistant be hired through December 30, 2021 through CARES and Bill budget for the remainder of the fiscal year (December 31, 2021-June 30, 2022) to search for a permanent assistant. Bill, Phil, and Cheryl will work on a job description.

  - optimistic will receive a large number of bids
  - change made to the project was pulled back on some of the items to be completed by the highway department. There are a number of tanks to be installed into the ground to be completed by contractor. Highway can do the grading and site prep. Once the construction is complete, they can return and pave it.
  - Switched building material from metal to wood. More options with pre-engineered structures and committee thought it advantageous to do so.
  - initial budget for engineering was \$236,000.00. Of that, \$200,000.00 was set aside for the architect; \$41.80 was added to architect invoices for expenses; \$30,000.000 of Owner's Project Manager (OPM); \$6,000.00 for bid cycle, of which \$4500.00 was for providing printed plans. Some changes were made to the plans; one being where building sits on property, another changed material from metal to wooden. More plans were requested because of the changes, going over budget. Propose a request for a transfer of \$2,000.00 from the reserve fund to put into the Public Safety Complex to cover the next couple weeks of bids. So moved by Teri. Second by Maureen.
