

Planning Board Meeting on 6/26/18

In Attendance

Pat Colley
Wade Clement
Mark Schwallie

Also Present

Ginny Curtis
Leo Aloisi
Mary Powers
Alex of CVE

Meeting called to order at 7:35 p.m.

Board discussed the Special Permit Application for installation of a large scale ground mounted solar system by CVE. Board discussed what was the correct filing date of the application and the tolling of 35 days for other board review. The town clerk accepted the application for filing on 6/18 despite a request that it be effective 6/26. The Board determined that if the 6/26 date was used as the starting point with notice to the other boards, then 7/31/18 would be the approximate deadline date for feedback from other town boards. Board also discussed that if the public hearing as before 7/31/18 then the public hearing would need to be kept open past 7/31/18.

Alex of CVE said that the application complies with the new solar bylaw that was approved on 5/12 and would like the public hearing as

soon as possible. Says he wants to meet with abutters.

Pat C. stated that the visual impact of the project is probably the most important matter.

Wade C. asked about consultants. The Board acknowledged that the new solar bylaw provided for them. Alex of CVE did not have any issue with the Board using a consultant.

Ginny C. - asked if the ~~proposed~~ ^{proposed} project had an Id with Eversource. Alex said it did and it was the interconnection agreement.

Mark S. placed a telephone call to board member Susan B after the Board discussed possible dates for the public hearing. Susan B said that she was available for 7/24. The Board agreed that the Public Hearing would be set for 7/24 at 7:00 p.m.

Wade C. moved to adjourn. 2nded by Pat C. All present voted in favor.
